

CASE REVIEW

Our case reviews aim to assist our professional community in managing their own cases effectively. These reviews will offer you an in-depth understanding of the environment, evaluate both historical and current hoarding patterns, and present a detailed strategy for how professionals should address these situations with the adult at the centre.

Reliable Services

Reaching are also able to supply additional reliable services:

- Waste removal
- Deep cleaning
- Black mould removal
- Pest control

Psychotherapy Services

Collaborating closely with a psychotherapy service that can be integrated to enhance holistic case management and professional organising services.

OTHER SERVICES

Reaching also provides tailored training designed to cater to the specific needs of individuals, teams, or organisations. As a non-profit, Reaching can offer complementary services, including group support, to foster community engagement. Additionally, Reaching plans to establish the first dedicated hoarding support group in Staffordshire.

CASE MANAGEMENT

8 WEEKS

This will involve dedicated hours for holistic hoarding case management and professional organising, guiding an individual through the journey of understanding and behavioural change. Our primary focus is on ensuring 3 key areas of the home are safe while also creating long-term strategies to maintain positive change.

16 WEEKS

You will not only benefit from dedicated case management and professional organising services for 16 weeks, but also focus on six key areas within the home for meaningful transformation. This 16-week period will provide the opportunity for a journey of change, laying a solid foundation for long-term sustainability.
